

Night Flying Qualification Courses NIT(H)

Discover the fascination of flying helicopters in the night sky

Flying by night is one of the most challenging tasks but at the same time also one of the most exciting ones.

During winter season AIR-EVOLUTION organizes helicopter Night Rating Courses, according to the European Aviation Safety Agency (EASA) for Flight Crew Licensing.

On completion of the Night Qualification you will be entitled to fly a helicopter approved for night VFR, with your PPL(H) license, between sunset and the limitations imposed by the law and according to visual flight rules.

Qualified and specialized instructors of our ATO (Authorized Training Organization) will take care of you and train you in individual and intensive lessons.

Conditions:

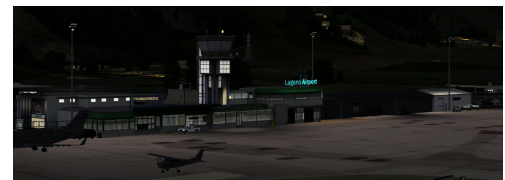

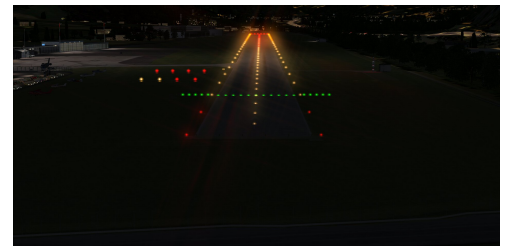

- Minimum flight experience on helicopters of 100 hours after the issue of the PPL(H) license, including 60 hours as PIC of helicopters and 20 hours cross-country navigation flight. An additional requirement for private pilots is the training of 10 hours simulated instrumental flight of which 5 hours can be made on a simulator.

Training:

- The training consists in a minimum of 5 hours flight training
- A minimum of 30 landings
- And a cross-country navigation flight of 50 km.

Training costs:

- On request

You also have the possibility to perform the training on your own helicopter, in this case the instructor activity will be charged as by effective training on a daily rate base.

Fulfill your dream and obtain your qualification for flying at night NIT(H).
